PRESENTATION OF THE CONFERENCE

The Vegephyl commission “Pests and Beneficials” organizes every three years an international conference on pests in agriculture and thematic sessions on pests of special interest such as “Mites in Crops” (2005), “Biodiversity and climatic changes” (2008), “Scale insects : main or secondary pests” (2011), “Invasive and developing pests and insects” (2014), and “Chemical ecology : news contributions to plant protection against pests” (2017).

27th of October 2020, a full-day conference will be held on “Of Pests and Men” in the context of crop protection against pests to guarantee agricultural productions and food.

HOW TO SUBMIT A PAPER

Those interested in presenting a paper must complete the enclosed “call for papers” form or fill in the online form on our website www.vegephyl.fr at the latest by **December 31th 2019**. **Passes this deadline, no paper will be accepted.**

The acceptance or refusal of each proposal will be communicated by the organising committee on **February 28th 2020 the latest**. Full texts must be sent before **June 30th 2020**. After peer-review, **the final corrected version must be returned no later than September 1st 2020**.

SIMULTANEOUS TRANSLATION

A simultaneous French-English and English-French translation will be provided during the plenary sessions.

KEY DATES

Call for papers form + abstract : **31th of December 2019 (latest)**
Acceptance or refusal of the abstract: **28th of February 2020 (latest)**
Full text by the **30th of June 2020 (latest)**
Final version by the **1st of September 2020 (latest)**

Attention: proposals of communications should be filled via the form available online on www.vegephyl.fr before December 31, 2019 the latest. It will also be possible to send a completed form attached by email to vegephyl@vegephyl.fr

PROVISIONAL PROGRAMME

This thematic day is built with lectures of international specialists of crop protection against pests and presentations following the attached call for papers.

Presentations submitted may be presented orally or in the form of poster, according to the decision of the scientific committee.

Each presentation will result in a paper which will be published in the annals of the conference (on electronic support).

Simultaneously, texts will be communicated to CABI (Center for Agricultural Bioscience International) to be included in their reference database.

REGISTRATION

Provisional programme and registration form will be available in **May 2020**. A discount on registration fees will be granted for speakers.

COMMUNICATION AND PARTNERSHIP

The 12th CIRAA will offer friendly area to exchange, receive and communicate where stands will be available.

It is also possible to sponsor a lunch, a dinner or a break, and goodies such as bags.

It will offer also to present your company in 3 slides in plenary session ...

All these proposals will be fixed with a specific contract.

For more information, contact Vegephyl.
