

## ENDURE

European Network for Durable Exploitation of crop protection strategies

Project number: 031499

Network of Excellence  
Sixth Framework Programme  
Thematic Priority 5  
FOOD and Quality and Safety

### ***Deliverable DI3.1***

**Website dedicated to information on mobility  
within the Network**

**Due date of deliverable:** M9

**Actual submission date:** M11

**Start date of the project:** January 1<sup>st</sup>, 2007

**Duration:** 48 months

**Organisation name of lead contractor:** CNR

**Revision:** V1.0

Project co-funded by the European Commission within the Sixth Framework Programme (2002-2006)	
Dissemination Level	
<b>PU</b> Public	
<b>PP</b> Restricted to other programme participants (including the Commission Services)	<b>X</b>
<b>RE</b> Restricted to a group specified by the consortium (including the Commission Services)	
<b>CO</b> Confidential, only for members of the consortium (including the Commission Services)

## Summary

The web pages dedicated to staff mobility is an important deliverable of IA3 activity (Human Resource exchange) and it represents the major “tool” to be used to manage Human resource exchange within Network and between the Network and other institutions/initiatives.

The “mobility pages” were published on 31 October 2007 in the ENDURE website (<http://www.endure-network.eu/>). The pages give all ENDURE participants detailed information about internal mobility and the public can find different kind of opportunities (ENDURE external mobility, fellowships, job proposals) to interact with the Network.

Prior to publication, the general structure and content of the web pages were approved by the ExCom in September 2007.

The most relevant information and key news have and will be published also in the IA3 room of the ENDURE collaborative workspace.

Texts, charts and files will be very regularly updated by IA3 coordination office through direct access to the web site back-office (using specific username and password). ENDURE mobility pages have been implemented with the technical collaboration of SA3 activity.

# 1. Presentation of the mobility pages

## 1.1 What are the website mobility pages?

The mobility pages are intended to facilitate mobility of PhD students, young researchers and senior scientists as well as the collaboration among ENDURE partners by providing a clear and comprehensive source of information and documents related to IA3 activity. In the future others initiatives/research institutions working on sustainable crop protection strategies, including INCO target countries, other EU research projects and other permanent networks dealing with sustainable crop protection will be involved. They will also be the main tool to efficiently manage IA3 activity.

In the pages it is possible to find general information on mobility activities, specific rules and duties to participate at the mobility plans, job opportunities, reference contacts of each ENDURE partner and links to key websites for practical assistance to mobility. In particular, it will be used to efficiently promote internal and external calls for mobility.

The mobility pages are located in the ENDURE website (<http://www.endure-network.eu/>) where all interested people in crop protection research, especially in Europe, can be informed about ENDURE activities to foster mobility of researchers. The mobility pages have been implemented with the technical collaboration of Christine Nouaille (SA3), who also provided username and password of the back-office and therefore the IA3 coordination office is now able to directly update the mobility pages.

## 1.2 How to connect?

Due to technical limitations of the actual structure of the ENDURE website, which does not allow more than four hierarchical levels, there are two links (hereafter call mobility sections) to connect to the mobility pages (Figure 1):

- Staff mobility: [http://www.endure-network.eu/staff\\_mobility](http://www.endure-network.eu/staff_mobility)
- Job opportunities: [http://www.endure-network.eu/human\\_resources](http://www.endure-network.eu/human_resources)

In 2008 ENDURE website will be re-organised and therefore, in collaboration with SA3 (activity in charge of the public website), the two links will be unified in 2008.

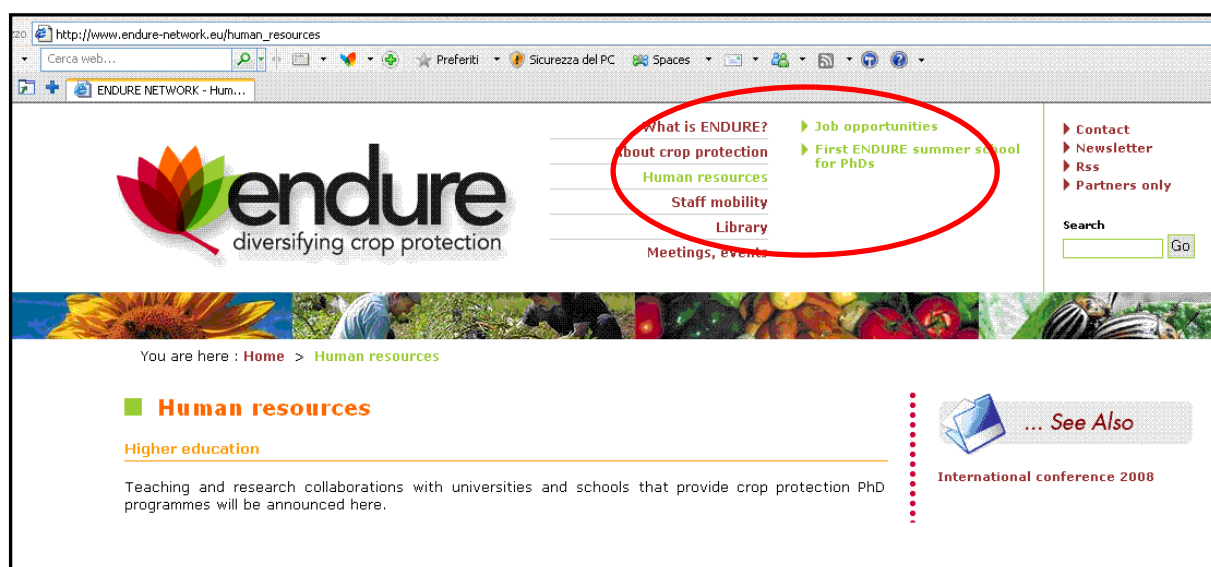

Figure 1

## 2. General Structure

Both, staff mobility and job opportunities sections include a number of sub-sections. The internal mobility is further split in two pages.

The pages contain texts, charts, links, e-mail addresses and downloadable files (doc).

### 2.1 Staff mobility pages

In the staff mobility pages there are 5 sub-sections:

- internal mobility: these pages provide information on all mobility plans and are used to manage internal competitive calls for mobility which are released annually. At the moment are available:

- the status of implementation of the first mobility plan (duration, topic, hosting institution) as well as the call for the second mobility plan, which was opened at the end of October,
- rules and duties for first and second mobility plans,
- downloadable files containing the form for final activity report and the application form for the second mobility plan (see attachments 1 and 2).

- external mobility: following a decision taken by the ExCom last September, ENDURE will initially concentrate (first and second mobility plans) on internal mobility. External mobility will therefore be supported starting from the third mobility plan.

- assistance to mobility: here, people can find links to key websites for practical assistance the mobility, in particular the European researcher's mobility portal (<http://ec.europa.eu/eracareers>) and the European Network of Mobility Centres - ERA-MORE (<http://ec.europa.eu/eracareers/era-more>) with all national mobility portals in Europe.
- contacts: the page include all e-mail addresses of the reference person for each ENDURE institution participating to IA3. E-mail address of the activities leader (Maurizio Sattin) and his personal assistant are also provided.
- FAQ: some common questions and relative answers about ENDURE staff mobility have been listed.

## 2.3 Job opportunities pages

This section will provide information on various job opportunities in crop protection, integrated pest and weed management (IPM), both within and outside ENDURE.

It will be possible to post a new job opportunity. If pertinent to ENDURE activities the new job opportunity will be promptly publish.

The online form is meant to provide all relevant information about the job (see attachment 3).

There are 4 kinds of opportunities:

- ENDURE PhD scholarship: SA1 in collaboration with IA3 will also offer a limited number of scholarships for PhD students. Details will be given in due course.
- others PhD opportunities: in this page, all kind of PhD positions in crop protection, within and outside ENDURE partners, will be published.
- post-doc: in this page, all kind of post-doc opportunities in crop protection, within and outside ENDURE partners, will be published.
- senior staff: in this page, all kind of opportunities for senior staff in crop protection, within and outside ENDURE partners, will be published.

## 3. Connection with the Collaborative Workspace

To better spread key news and receive comments or suggestions from ENDURE participants, the most relevant information have and will be published also in the IA3 room of the ENDURE collaborative workspace. Direct links to the webpage are provided. This action was done in collaboration with IA4.2 sub-activity.

## **4. Implementation and management of the website**

Mobility web pages will be directly managed by the activity leader's office using specific access to the web site back-office through username and password.

## Annex I: printout of mobility pages

### Staff mobility

The image shows two screenshots of the ENDURE website, which is titled "ENDURE NETWORK - Diversifying crop protection - Microsoft Internet Explorer".

**Top Screenshot: Diversifying crop protection**

- Header:** The ENDURE logo (a stylized leaf) and the text "diversifying crop protection". Navigation links include: What is ENDURE?, About crop protection, Human resources, Staff mobility, Library, Meetings, events, Contact, Newsletter, Rss, and Partners only. A search bar is also present.
- Breadcrumb:** You are here : Home > Diversifying crop protection
- Section: Diversifying crop protection**
  - Text:** "ENDURE, European Network for the Durable Exploitation of Crop Protection Strategies, is a network of excellence (NoE) funded by the European Union under the Framework 6 programme."
 

The purpose of ENDURE is a **durable restructuring of European research and development** in order to improve understanding of the biology of crop-pest interactions, combining analytical and system-based approaches, to encourage collaboration between biologists, agronomists, economists and sociologists in designing innovative approaches to crop protection. The knowledge generated will be transferred to all stakeholders: industry, policy makers, extension services, farmers and general public.

A **European network of expertise and knowledge** will be developed, and progressively enhanced by teams from other Member States and countries outside Europe whose products are exported to Europe.

The network will establish itself as a world leader for the development and implementation of **sustainable crop protection strategies**. The creation of a European pest control competence centre will help it to become a central point of reference.

ENDURE network is not a decision-making body. However, in a societal and regulatory context of increasing restrictions on pesticide use, **it will provide tools and knowledge to stakeholders who make decisions** about the optimisation and reduction of pesticide use.

**Training, higher education and information exchange programmes** will transfer results, expertise and knowledge to all concerned parties.
  - NEW! The call for the Second mobility plan is open deadline: 30 November**
  - Latest News:**
    - International Conference, La Grande Motte 2008
    - ENDURE Annual Meeting
    - The call for the Second mobility plan is now open
    - Summer school: welcome !
  - External events:**
    - All the news
    - All the events

**Bottom Screenshot: Staff mobility**

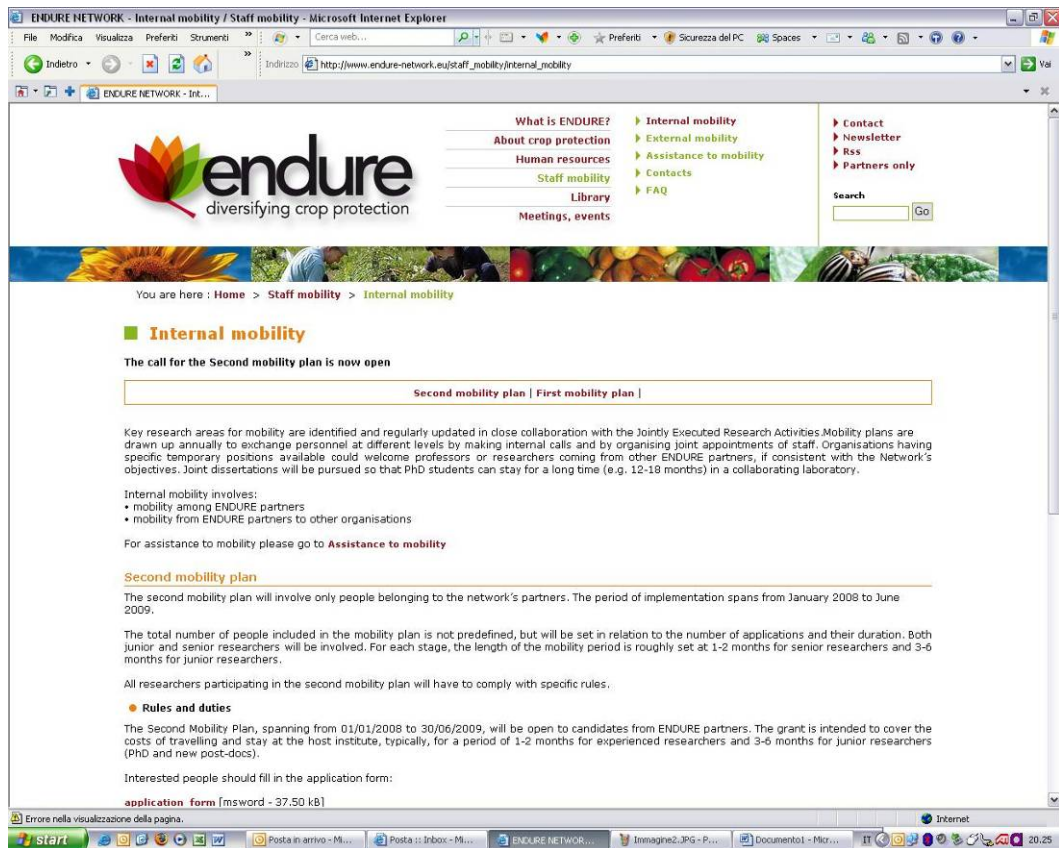

- Header:** Similar to the top screenshot, but the navigation links are updated to include: Internal mobility, External mobility, Assistance to mobility, Contacts, and FAQ.
- Breadcrumb:** You are here : Home > Staff mobility
- Section: Staff mobility**
  - Text:** "Fragmented and localised capacities in IPM activities hamper competitiveness and do not benefit from available resources (including human ones) in Europe. Mobility programmes in education demonstrate the need for and success of exchanging scientists."
 

The objective of staff mobility is to contribute to strengthening the capacity and competitiveness of crop protection research in Europe, with emphasis on IPM approaches, through implementing an efficient mobility programme targeting both experienced scientists and young researchers (PhD students and new post-docs). The Network has allocated substantial funding to this activity.

Initially, mobility will concentrate within the Network, therefore only ENDURE partners will be involved. Subsequently, mobility from and to the Network will be encouraged. ENDURE will also support and coordinate staff mobility between the network and other initiatives/research institutions involved in sustainable crop protection strategies, including INCO target countries, other EU research projects and other permanent networks involved in crop protection. Staff mobility should involve topics relevant to the scope of the Network and contribute towards strengthening research and competences in priority areas. External mobility should bring external input and knowledge where needed.

The Network adopts various strategies to make movement more attractive. At a practical level, it eases mobility by providing more information about opportunities, administrative procedures and available accommodation through connections with the European Network of Mobility Centres ERA-MORE. At a strategic level, the mobility programme will work with the Jointly Executed Research Activities to provide more opportunities for staff exchange amongst the partners as well as with external organisations.

### Internal mobility

The call for the Second mobility plan is now open

[Second mobility plan](#) | [First mobility plan](#)

Key research areas for mobility are identified and regularly updated in close collaboration with the Jointly Executed Research Activities. Mobility plans are drawn up annually to exchange personnel at different levels by making internal calls and by organising joint appointments of staff. Organisations having specific temporary positions available could welcome professors or researchers coming from other ENDURE partners, if consistent with the Network's objectives. Joint dissertations will be pursued so that PhD students can stay for a long time (e.g. 12-18 months) in a collaborating laboratory.

Internal mobility involves:

- mobility among ENDURE partners
- mobility from ENDURE partners to other organisations

For assistance to mobility please go to [Assistance to mobility](#)

#### First mobility plan

The first mobility plan involves only people belonging to the network's partners. The period of implementation spans from January 2007 to June 2008. The plan includes a total of 29 researchers (8 senior researchers and 21 junior researchers); all research partners are involved either as sending or hosting institution.

#### Rules and duties

For each stage, the length of mobility period was roughly set at 1-2 months for senior researchers and 3-6 months for junior researchers. During the visit, the researcher must continue to be employed by his/her sending organisation; salary is not an eligible cost.

Eligible costs are:

- travelling: 1 return travel from the sending to the hosting institution (max € 750);
- accommodation and living expenses according to internal rules of the sending institution.

The budget for each researcher was decided and allocated before the start of the project. Only this budget can be refunded by ENDURE unless any change is previously agreed with the activity leader.

ENDURE NETWORK - Int...

The following steps should be taken:

- the researcher, prior to the start of the visit, needs to confirm with the activity leader, Maurizio Sattin, the start and end dates of the visit as well as the hosting institution (the message should be sent to his p.a.: [elisa.scanzi@ibaf.cnr.it](mailto:elisa.scanzi@ibaf.cnr.it));
- at the end of the visit, the researcher has to send a final report to the activity leader, Maurizio Sattin, (the message should be sent to his p.a. [elisa.scanzi@ibaf.cnr.it](mailto:elisa.scanzi@ibaf.cnr.it)). The final report should be sent within 15 days of the end of his/her visit;
- the researcher will be refunded directly by his/her institution after the activity leader has approved and transmitted the final report to the reference person of the specific organisation. The reference person for each organisation should inform his/her administration of the above rules;
- all visits must end by June 2008.

These rules apply from the time this mobility webpage is published (October 2007). Therefore all people who have finished their visit before this date should send their final report by the end of November at the latest.

#### Final report form

Final\_activity\_report [msword - 41.50 kB]

#### People/institution involved and status of activity

Sending partner	Scientist name	Category	Topic or mission description	Stay duration	Hosting partner	Status of the activity	Final report
PRI	M. Klerks	PhD	Risk analysis of the occurrence of Human pathogens on fresh products using advanced detection and monitoring technologies	3 months	AU (DIAS)

This section provides information on various job opportunities in crop protection, integrated pest and weed management (IPM), both within and outside ENDURE. Through a joint effort of activities SA1 (Joint training and education programmes) and IA3 (Staff mobility), ENDURE will also offer scholarships for a limited number of PhD students.

You can record a new job opportunity in crop protection, integrated pest and weed management related topics. Complete the file card below and send it to [elisa.scanzzi@ibaf.cnr.it](mailto:elisa.scanzzi@ibaf.cnr.it). Your proposal will be published on the website.

## Attachment 1 - Final activity report

### ***European Network for the durable exploitation of crop protection strategies***

#### **IA3 Activity: Human resource exchange**

#### **ENDURE - Internal Mobility**

#### ***Final activity report***

*(The form has to be filled in and sent to the activity leader – message should be sent to his  
p.a. elisa.scanzi@ibaf.cnr.it – within 15 days after the end of the visit)*

#### **Topic of the visit**

---

### **1. Information about researcher and sending partner**

**Name and surname:**

**Professional status:** *(PhD student, post-doc, junior or senior scientist)*

**Sending partner:**

**Institute/Department/Research Unit:**

**Address:** *(street, postal code, city)*

**E-mail and phone number of the researcher:**

**Supervisor name\*:**

**Supervisor e-mail\*:**

**Supervisor phone number\*:**

*\*Supervisor information only for PhD student, post-doc and junior researchers*

### **2. Information about hosting partner**

**Hosting partner:**

**Institute/Department/Research Unit:**

**Address:** *(street, postal code, city)*

**Supervisor name\*:**

**Supervisor e-mail\*:**

**Supervisor phone number\*:**

\* For senior scientist indicate the name of the collaborating colleague

### **3. Information about the visit**

**Duration:** *(number of weeks or months)*

**Starting date:**

**Ending date:**

### **4. Description of the activities and outcomes**

**Background and context:** *maximum 10 lines*

**Objective:** *maximum 10 lines*

**Activities carried out:** *maximum 20 lines*

### **5. Links between visit activity and ENDURE**

*Describe links and relevance of your visit in relation to a specific ENDURE activity(ies) and sub-activity(ies) – maximum 15 lines*

### **6. Impact**

**Added value for the researcher:** *maximum 10 lines*

**Added value for sending partner and hosting partner:** *maximum 10 lines*

**Date of submission**

## Attachment 2 - Application form for the second mobility plan

### ***European Network for the durable exploitation of crop protection strategies***

#### **IA3 Activity: Human resource exchange**

#### **Second ENDURE internal mobility plan**

### ***Application Form***

*(This form has to be completed and sent to the activity leader Maurizio Sattin – the message should be sent to his p.a.: elisa.scanzi@ibaf.cnr.it – by 30 November 2007)*

#### **1. Information about researcher and sending partner**

**Name and surname:**

**Professional status:** *(PhD student, post-doc, junior or senior scientist)*

**Sending partner:**

**Institute/Department/Research Unit:**

**Address:** *(street, city, postal code)*

**E-mail and phone number of the researcher:**

**Supervisor name\*:**

**Supervisor e-mail\*:**

**Supervisor phone number\*:**

\* Supervisor information only for PhD student, post-doc and junior researchers

#### **2. Information about hosting partner**

**Hosting partner:**

**Institute/Department/Research Unit:**

**Address:** *(street, city, postal code)*

**Supervisor name\*:**

**Supervisor e-mail\*:**

**Supervisor phone number\*:**

\* For senior scientist indicate the name of the collaborating colleague

**3. Information about the visit**

**Duration:** *(number of weeks or months)*

**Start date:**

**End date:**

**4. Topic of the visit**

*Maximum 3 lines*

**5. Links between visit activity and priority areas**

*Write the priority areas selected for your visit and the motivation – maximum 10 lines*

**Date of submission**

## Attachment 3 - Form to post a new job opportunity

### ***European Network for the durable exploitation of crop protection strategies***

#### **IA3 Activity: Human resource exchange**

#### **Job opportunities**

*(This form has to be completed and sent to the activity leader – the message should be sent to his p.a. [elisa.scanzi@ibaf.cnr.it](mailto:elisa.scanzi@ibaf.cnr.it))*
