

IPM Resource Toolbox - input survey

The EU funded [IPMWorks](#) project [H2020 project no. 101000339] will develop an online IPM Resource Toolbox. This toolbox will enable farmers, advisors and researchers across Europe to easily search, share, and discuss IPM resources. Resources will include training modules, results of demonstration trials, leaflets describing cost-effective IPM strategies, videos of farmers' testimonies, videos of demonstration events, training materials, Decision Support Systems (DSS) (from [IPM Decisions](#), H2020817617), cultural control descriptions, and resource evaluation material.

To help us design an efficient but comprehensive toolbox, we invite you to complete a short, anonymous survey. The survey consists of 10 questions and should only take a couple of minutes to complete.

[IPM Resource Toolbox Survey \(English version\)](#)

IPMWorks project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreements No 101000339'.
